---

Full-Stack Developer versed in building beautifully responsive and intuitive front-ends and efficient and resilient back-ends. Graduate of the UCLA Extension Full-Stack Bootcamp. Over five years of experience in nonprofits building positive and genuine donor relationships through thoughtful, tactful, and empathic relationship management. Bringing this same authentic communication to my web and software development by prioritizing attention to detail, fostering supportive atmospheres, and building products that make user's lives better.

LANGUAGES AND TECHNOLOGIES
HTML5, CSS3, JavaScript, React, Node.js, Express.js, MySQL, MongoDB, Sequelize, Mongoose, Firebase, Bootstrap, Handlebars, jQuery, Heroku, Git, GitHub

EXPERIENCE
www.natemicinski.com   **2017-present**
Freelance Full-Stack Developer
- *Developed more than 15 projects (http://www.natemicinski.com/portfolio) built with React, Node.js, Express.js, Firebase, Heroku and more. Project highlights:*

  Beyond the Block, Inc. Website – In Progress
  Commissioned to create a modern and functional update to the organizational website. Working with stakeholders to assess needs, provide creative and design input, and iterate on requested revisions.
  New Site (In Progress): https://btb-website.herokuapp.com/
  Original site: http://www.beyondtheblock.org/
  - *React, Node.js, Express.js*

  JES — JavaScript Entertainment System
  A full MERN stack application that brings your favorite classic arcade games to the comfort of your own web browser.
  Site: https://js-entertainment-system.herokuapp.com/
  Source: https://github.com/DearLorditsNate/arcade
  - *React, Node, Express, MongoDB*

  Yum(Me)
  A fully RESTful web application that allows users to search, save, edit, create and delete recipes. Yum(Me) is the new age equivalent of a personalized cookbook.
  Site: http://www.yumme.recipes
  Source: https://github.com/DearLorditsNate/Yum-me
  - *Node, Express, MySQL, Sequelize, Firebase, Bootstrap, Handlebars*

Traveler Check
A currency conversion check for your travels.
Site: https://dearlorditsnate.github.io/TravelerCheck/
Source: https://github.com/DearLorditsNate/TravelerCheck
- *Materialize, OpenWeatherMap API, Open Exchange Rates API, Yandex Translate API*

Development Manager   **2017-present**
March of Dimes, Glendale
- *Manage and cultivate high-value and high-profile donor relationships, coordinate and execute premiere fundraising events, and use data-driven best practices to achieve revenue growth and sustainability.*
    - Grew year-over-year portfolio revenue by 10% to total $470,000 annually.
    - Ranked top 5% of employees by performance metrics in national organization.
    - Regularly give presentations to audiences of up to 400 attendees.
